MARYAM FADAEI

With 16 years of teaching experience at Iranian art universities and a concurrent role as a decorator and art consultant for television programs, specializing in children's shows, I have illustrated 18 children's books and participated in 33 solo and group exhibitions, both domestically and internationally. My work has earned me 21 prestigious awards and recognitions in art competitions.

I am driven by a passion for exploring fresh perspectives, brainstorming ideas, and solving challenges. The golden ratios found in nature serve as a profound source of inspiration for my artistic endeavors. Moreover, my extensive research in creativity development has led me to present various lectures and workshops on this subject for art educators.
